

FOR SALE OR LEASE

PLACER GOLD PROPERTIES

The Atlin Gold Camp in Northern British Columbia was first discovered in 1898 and continues to produce a large volume of placer gold annually. Black Canyon Gold Corporation has a large number of properties ready to go. We have a strong belief in this area and the future of gold. **Why buy GOLD.... when you can mine it!**

The Opportunities

For the discerning investor who would like a holding property as a hedge against gold or the practical miner who wants to dig in the dirt - we have something for everyone. We can also provide assistance with permitting and water licenses, and equipment purchase or rental.

The Properties

Wilson Creek - Over 1300 ha including huge virgin areas. **LEASED**

Wright Creek - 1050 ha plus 1000 ha mineral. **AVAILABLE**

Boulder Creek - Over 100 ha including 500 m of creek and benches. A promising prospect best suited to a smaller operation. Creek has incredible historic production. **\$100,000 AVAILABLE**

Spruce Creek - A number of smaller properties along BC's #1 producing creek. Starting at **\$25,000**.

AVAILABLE

Pine Creek - 80 ha just below the historic discovery claims and a 10 minute drive to Atlin. **\$60,000**. *Also available: large exploration property on Pine creek – ready for exploration and potential huge return. Offering excellent terms for a qualified JV partner.* **AVAILABLE**

Feather Creek - Legendary creek located high in the mountains above Atlin. Known for producing crystalline and wire gold. We have two separate parcels available together or separate. Starting at **\$40,000**. **AVAILABLE**

Consolation Creek - Located North of Atlin, this claim has received little work due to being a bit more remote. Good road access. Could have huge potential with high gold prices. Available for a very reasonable **\$60,000**. **AVAILABLE**
